

Graduate Student Incentive Program (GSIP)

Nomination Instructions/Information

For Students:

1. Only students newly awarded an external fellowship are eligible to be nominated. While there is no specific deadline for the GSIP, the department must nominate the student within the first semester they receive the award. Students are ineligible for retroactive awards and will forfeit their eligibility if they are not nominated within this time-frame.
2. After this form has been completed by your DGS, you will need a pdf copy of it to attach to your online application. The fellowship portal will not allow you to submit your application without an attachment. Attaching any other document will result in an automatic disqualification from this fellowship.
3. Receiving a nomination from your DGS **does not** guarantee your eligibility for the GSIP.
4. Please work with your DGS to prepare the following documentation to be included in your online application:
 - a. External fellowship award letter or renewal notice & copy of HRS assignment, if applicable, with stipend amount indicated
 - b. Documentation that the award is a nationally or internationally competitive fellowship
 - c. Beginning and ending dates as noted by the awarding agency
5. Please include as much information as possible about the external fellowship.

For Directors of Graduate Studies:

1. Please provide all information requested in this form.
2. Nominees must have been awarded a nationally or internationally competitive fellowship of \$10,000 or more annually. Fellowship recipients from all areas of study are eligible to apply.
3. Once you have completed the form, return it to the student for them to include in their renewal application.
